

Door Frame Metal Detector (Single Zone)

For Malls, Airport, Hospital and
Industrial use

SRTEC walk through Single Zone Metal Detector is designed to detect all types of metals (ferrous , nonferrous, ferrite) .The search coil & control modules are housed in a aesthetically designed archway. The archway designed for quick installation & erection. Walk / Stop indicator is incorporated above the entrance of the archway to regulate the flow of traffic . All the controls & audio visual indication are provided on the top of the rear side of the archway. All electronic circuits are designed with plug-in card system for easier service ability.

Features :

- For indoor use.
- Auto Set function.
- Micro Controller Based.
- Digital Screen for Person Counter (Optional).
- Sensitivity adjustment indicator.
- Volume adjustment indicator.
- Mains/ Battery operated.
- In-built control unit & battery charger.
- Audio/ Visual indication for detection.
- Easy to install.
- Detachable in three parts.

Technical Specification :

Power	230v AC \pm 15% ,50hz
Current	0.3A typical.
Passage Clearance	1900 X 725 X 240 mm.
Overall Dimension	2140 X 842 X 240 mm
Floor Space Required	860 X 842 mm
Weight	Approx 42 Kg
Body Material	laminated Wooden Body
