

Automatic Retractable Gate

For Malls, Parks & Commercial use

Retractable Gates are constructed in such a way that their kinematic links are joined together to have to-and-fro contracting & expanding motion with respect to each other. They can be made available in single or two bottom rails for its expanding and retracting motion. These gates are best suited for the openings facing space constraints or do not have parking space.

Optional Accessories:

- PHOTOCEL
- ANTI CLIBING SENSOR
- LED LIGHT / FLASHER

Technical Details :

Gate Length	Max 30m single length
Standard Height	1600mm
Gate Body	Aluminium / SS 304
Gate Color	Gray / Silver / Customized Color
Input Voltage	AC220V±10% 50Hz
Motor Power	2x370W / 2x420 / 2x550W
Moving Speed	18m per min.
Operation	Manual / Push button
Opening Pattern	Automatic Straight
Security Feature	Anti-Collision Sensor
